# JUNE SALE VOLUNTEERS NEEDED!!

You read about it in the May Cactus Chronicle! It is that time of the year again – time for our June Sale. In spite of past pandemic limitations and restrictions, our June Sale continues to be a very popular community event. This year will be no exception. One of the reasons for our continued success is the commitment of our volunteers. That would be **YOU!**

## **We need about 25 volunteers for Friday and Saturday.**

Each shift will be for 3 hours (if you can spare only 2 hours, that's OK). Various areas need your attention – such as parking control, visitor survey, monitoring the sale area and the vague "OTHER."

First time volunteers will receive one of our very popular day-glo, yellow-green LACSS Volunteer t-shirts. In addition, all volunteers will receive a \$15.00 voucher to be used at any of the vendors at the June Sale. As a special treat, we have arranged for a food truck to be available Friday and Saturday. They will offer food and beverages during sale hours and a breakfast choice on Saturday morning.

If you are a new member, this is a good time to join in the fun, meet "old" members and be the reason our visitors always come back.

Please email me to let me know what day you would prefer to volunteer.

My email is [ropojo@pacbell.net](mailto:ropojo@pacbell.net). I look forward to hearing from you.

Sincerely,  
Joyce – Volunteer Coordinator

# WE NEED BOXES!

We need boxes for our  
June Sale visitors.  
You may bring them to  
the June meeting at  
**ONEGeneration.**

**TIION! AUCTION! AUCTION! AUCTION! AUCTION!**

**FRIDAY EVENING, JUNE 10, 8:00 PM (FOLLOWING THE SALE)**

## **LIVE OUTDOOR AUCTION**

THE FRIDAY EVENING LIVE AUCTION FEATURES RARE AND HARD-TO-FIND PLANTS SUBMITTED BY VENDORS AND CLUB MEMBERS. THIS EXCITING EVENT IS NOT ONLY AN OPPORTUNITY TO PURCHASE RARE PLANTS, BUT ALSO AN ENTERTAINING LEARNING OPPORTUNITY. PLANTS MAY BE OUTRIGHT DONATIONS FROM SELLERS, OR SPLIT BETWEEN THE SELLER (70%) AND LACSS (30%). THE AUCTION WELCOMES PUBLIC PARTICIPATION.

**PLANTS SHOULD BE VALUED AT \$30.00 OR MORE. SELLERS PLEASE BRING YOUR PLANTS TO THE LACSS TABLE BETWEEN 4:00 AND 6:00PM AND FILL OUT THE SUBMISSION FORMS WITH YOUR NAME, THE PLANT NAME, AND MINIMUM BID.**

**SATURDAY, JUNE 11 9:00AM – 2:00PM**

## **HOURLY SILENT AUCTIONS**

ON SATURDAY, SILENT AUCTIONS WILL BE HELD APPROXIMATELY HOURLY THROUGHOUT THE DAY. APPROXIMATELY 8 - 10 ARE DISPLAYED FOR AUCTION AT A TIME, AND BIDDERS SIGN THEIR NAMES, CONTACT NUMBER, AND AMOUNT BID ON THE BID SHEET. AT THE DESIGNATED ENDING TIME ABOUT AN HOUR LATER, THE HIGHEST BIDDER GETS THE PLANT. IN CASE OF A TIE, LIVE BIDDING MAY BE CALLED FOR BETWEEN THE TWO HIGHEST BIDDERS. SILENT AUCTIONS ARE FUN AND SUSPENSEFUL, WITH BIDDERS COMING BACK REPEATEDLY TO CHECK THEIR PLACE ON THE BID SHEET.

**VENDORS AND LACSS MEMBERS MAY SUBMIT PLANTS FOR SILENT AUCTIONS ON FRIDAY EVENING OR SATURDAY THROUGHOUT THE DAY, BEGINNING AT 8:00AM. SIMPLY FILL OUT A SUBMISSION FORM WITH YOUR NAME, THE PLANT NAME, AND THE MINIMUM BID. SELLERS WILL RECEIVE A 70/30% SPLIT WITH LACSS. PLANTS SHOULD BE VALUED AT A MINIMUM OF \$20**

**\* LACSS RESERVES THE RIGHT TO DETERMINE WHICH PLANTS QUALIFY FOR EACH AUCTION**

Happy Summer Solstice, Everyone

Well, it finally happened!!! We successfully reentered the world of in-person meetings. And was it a lot of fun!! It was preceded with months and months of discussion, planning, what-ifs and why not try that. We even had a dry run in January. The whole evening ran smoother than most of our pre-pandemic meetings. The Zoom portion was attended by several members who couldn't make it to the meeting so we will continue to offer that option to attend a meeting.

Many, many thanks to everyone who was a part of creating such a memorable evening!

**JOHN AND KIMBERLY** zoom plus audio and visual  
**COLLIN** for acquiring such great plants for our door prizes  
Our vendors **RALPH, BRYAN, JUNE, AL**  
Program **RON B.**  
Speaker **STEFAN**  
POM **MANNY AND NANCY**  
Refreshments **KAREN**  
Membership **ROSE, GAIL, MARY**

And to all of you who brought freebie plants and helped with chairs and tables.

The first combined LACSS/SFVBS meeting on June 4 will feature Stefan Burger presenting two different programs. This is an opportunity to see two more programs by Stefan. **DETAILS ON PAGE 12.** The Bromeliad Society will be selling tickets for their raffle that will held at the end of their meeting. That will be followed by our June Sale Friday, June 10 at 6 PM and Saturday, June 11 from 9 AM till 2 PM. Both of these events have featured announcements in this Chronicle. **Volunteers for the Sale are still needed for Friday and Saturday.**

As a thank-you to all the members who supported club activities during the pandemic, the Board agreed to have a selection of door prize plants instead of the raffle. But, now we are back to the good ole ways and are returning to the raffle. Collin will have an interesting selection of plants for you to choose from.

In addition, as a member, you may also donate a plant to the raffle from your collection that you no longer need. It should be in good condition and clean and too good for the freebie table. Let Collin know that you are donating a plant so we can recognize your generosity. The freebie table had some spare space on it so bring in your unwanted cuttings and plants to share with other club members.

Speaking of plants – this month is everyone's favorite – really!!!

What would you like to see on the refreshment table? Coffee and water are not a problem. Did you like the snacks that were provided at the May meeting? More fresh fruit? Nothing? Let me know.....  
Looking forward to seeing you soon. Stay safe and stay healthy.

Joyce

# ERNESTO SANDOVAL

has been wondering and seeking questions and answers to why plants grow and look the way that they do for nearly 40 years. Now he explains and interprets the world of plants to a variety of ages and from amateur to professional gardeners. He regularly lectures to a variety of western Garden Clubs throughout the year and particularly to Succulent Clubs throughout California. Desert plants are his particular passion within his general passion for plants. He describes himself as a "Jose of All Plants, Master of None" and loves learning from the experiences of others as well as his own. Ernesto thoroughly enjoys helping others, and gardeners in particular, to understand why and how plants do what they do.

When he was about 13 he asked his dad why one tree was pruned a particular way and another tree another way. His dad answered bluntly "because that's the way you do it." Since then he's been learning and teaching himself the answers to those and many other questions by getting a degree at UC Davis in Botany and working from student weeder/waterer to Director/Manager over the last 30 years at the UC Davis Botanical Conservatory.

He's long left the "mow blow and go" monoculture landscape gardening world and has immersed himself in the world of horticultural biodiversity by growing several thousand types of plants at the UC Davis Botanical Conservatory, many of them succulents! Several of his favorite garden projects involved converting lawns and or water loving landscapes to drought tolerant and diversity filled gardens! He likes to promote plant liberation by encouraging gardeners of all sorts to grow more plants in the ground when possible. He loves the technical language of Botany but prefers to relate information in more understandable methods of communication! By helping people to understand the workings of plants he hopes to help us better understand how to and why our plants do what they do and how we can maximize their growth with less effort.

HOW FERTILIZER, WATER PH AND SOIL CAN AND SHOULD BE ADJUSTED!

Perhaps you've heard that pH is important for plants? Ernesto will summarize why you want your plants to receive slightly acidic water and various ways you can adjust it for your succulents. How is this similar and different than fertilizing "regular" plants? Ernesto will discuss all of this plus the importance of "soils"/container media and the details of how you can maximize the root potential for your plants!

# LACSS SATURDAY WORKSHOP

A REPORT OF CLUB FIELD TRIP  
TO ROB ROY'S GREENHOUSE

I hate to make anyone feel bad, but if you missed Rob Roy, you missed an amazing experience! We had a wonderful time at Rob Roy McGregor's home. Rob is an amazing, self taught, cacti, and succulent grower, and gave an educational and fun presentation too!

He taught us the difference in planting in pots vs ground, spoke about proper water pH, and how often to irrigate. Using a quick and easy technique of placing a wooden barbecue stick in the soil; if the soil sticks, the soil is wet, and it's not time to water. He also covered new methods of propagation with us. You can see from the photos, Sylvia is placing a hot nail through the meristem of the ferocactus. This causes the plant to send off new pups around the cacti.

His yard and green houses were not to be missed, and if you are a fan of fouquieria, he has every species in his backyard!

To top it all off, Rob gave out party favors and donuts to all us! Rob was nice enough invite us back for another visit in the fall. Hope to see you all there!
